₹° Flag	Small Talk I on wonking see important in conversation with other people.
question	In clouding : (show interest, listen with your eyes, think before your respond, don't interrupt, how you speak, body language, words you use, invite to calm down).
	All of them are very important and we should pay attention to them but I think two things are more worthwhile for us .
	For example , when someone is angry or is upset about something even then has a big problem with someone else and needs help also giving a solution's way helps him/her .
	First of all It's better that we invite him/her to calm down after that ask him/her what happened ?
	Then propose him/her sit down and explain that matter with details so second phase we can listen to him/her completely and sometimes in within him/her speak with body language so looking into his eyes also without don't interrupt him/her words as well as confirming him/her sentences.
	At the end when that person calmed down really we can by the use suitable words and get right advise to help that person for solve him/her problem .
	I believe this technic will be effective for every one .
	of course all of these things depend on the circumstances in different time and places .

Marked out of 1.00 Small talk: how to be a good speaker

₽ Flag question Don't ask personal questions

This is not a good manner to speak personal questions such as income, marital status, divorce, etc. People don't like who cry into someone's life.

Speak with coherence and paraphrase your speech

When you are talking to someone don't chatter. It's better to keep a balance in speaking and listening and give them time to speak.

Used body language and hand gesture

It would be abnormal seeing someone speaking without any movement so show body language and hand gesture. This way can make the listener comprehend that you are interested in talking to them. Be polite

Think before you speak

Comment

Speaking without any thinking shows you are unconscious and devoid of any sophistication. The more you are sober and dignitious the more you can attract people in a large volume.
