Welcome to **SUPER MINDS** **SECOND EDITION**

Rediscover *Super Minds!*

Welcome to *Super Minds 2nd Edition*, a thoroughly updated and enhanced new edition of a much-loved English course from this renowned author team.

Accompany your students on exciting adventures with the intrepid characters, as they enjoy creative projects, authentic CLIL content, and the flexibility of the extensive skills practice, whilst working towards B1 level on the Common European Framework of Reference for Languages (CEFR).

Aligned to the Cambridge Life Competencies Framework, *Super Minds 2nd Edition* has a particular focus on developing Critical and Creative Thinking skills. In addition, throughout the course, students will develop their working memory, inhibitory control and cognitive flexibility, three key cognitive control functions for young learners. Together with the universal values introduced in each story, these skills help create curious and successful lifelong learners, and socially responsible individuals.

Super Minds 2nd Edition is supported by a comprehensive digital package in *Cambridge One*, a new-generation learning environment, including big-screen quality animated videos for the classroom, Practice Extra with digital activities for home or lab learning, together with comprehensive data views, rewards, and the capacity to assign homework digitally.

Super Minds 2nd Edition is a course that combines the very best of rich classroom experience with contemporary pedagogical research.

Super Minds 2nd Edition: **The thinking course, revisited**

Super Minds is much loved by millions of learners of English in over 70 countries. Since its publication we have carried out extensive research to find out what teachers and learners love about **Super Minds**, and what could be updated and made even better.

While this new and improved 2nd Edition of **Super Minds** maintains its easy-to-use, comprehensive language syllabus and unit structure, the experience of teaching and learning with the course is thoroughly refreshed and contemporary.

What have we kept?

The things teachers and learners love:

- relatable characters who enjoy exciting adventures
- fun and catchy songs and chants which aid engagement in the classroom and at home
- interactive and engaging projects and activities
- authentic CLIL content and extensive skills practice
- a comprehensive language syllabus.

What have we improved?

Super Minds 2nd Edition represents a significant update.

Here's how **Super Minds 2nd Edition** has changed:

1 New design

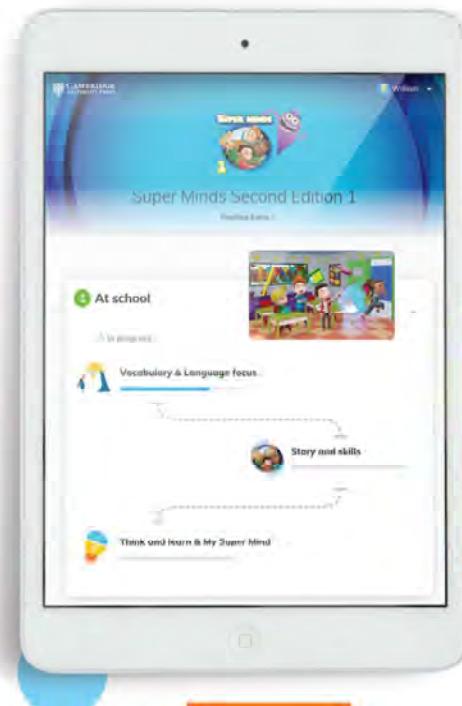

- The characters and stories throughout the course have been transformed with new contemporary illustrations: today's students will find them as relatable as ever and be charmed by their adventures.
- Higher levels have been designed to reflect the increased sophistication of today's pre-teens.

3 Enhanced digital support

- Extensive digital support for teachers and students is accessed through our new learning environment, Cambridge One.
- Presentation Plus gives easy access to resources in the classroom, including the new animated videos.
- Practice Extra provides extra digital activities for students in a carefully tailored environment designed specifically for Primary learners. It includes interactive games to review language and *Brain Break* activities to aid motivation and help recharge the brain.

Presentation Plus

The Cambridge Life Competencies Framework

Our world is changing fast and we need to prepare our students with the skills and experiences that go beyond learning an additional language.

Our job as Primary educators is complex. How do we prepare our students for a future which may be dramatically different from the present? Experts say there are some key skills which will be essential for the citizens of tomorrow: working together with people from around the world, thinking creatively to solve problems, analysing sources more critically, communicating our views effectively, and maintaining a positive mindset in an increasingly complex world.

The Cambridge Life Competencies Framework supports teachers in this challenging area – we understand that the engaging and collaborative nature of the language classroom is the perfect place to develop and embed these key qualities.

Cognitive control functions

Successful language learning requires our learners to be in control of their own learning and of themselves. To do this, they need to:

- set goals
- organise learning over time
- focus attention to be able to stay on task
- adapt behaviour in order to overcome challenges and reach goals.

To manage these behaviours successfully, the brain uses **cognitive control functions** which determine students' success in learning and have a significant influence on their future success and wellbeing.

Activities in *Super Minds 2nd Edition* have been designed to enhance the **three core areas** of learners' cognitive control functions:

Working memory

is the ability to hold information in mind so that certain tasks can be completed.

This activity in Unit 1 of the Workbook helps to improve learners' working memory.

1  Can you remember? Listen and write.

What's this? What's this? Please tell me, what's this?

(1) Is it a  pen ...? (2) Is it a  ...?

Come on, take a look.

(3) It's a  ... (4) It's a  ...

1  Read and match. Tick the correct picture.

What is he doing? It's unfair!

Inhibitory control

refers to the abilities to focus attention and control our emotional and behavioural responses.

This activity in Unit 4 of the Workbook helps to improve learners' inhibitory control.

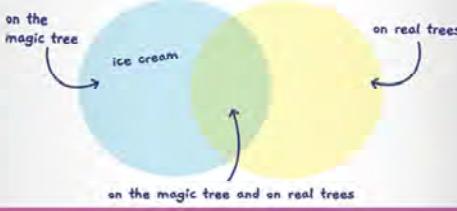

Cognitive flexibility

is needed for solving problems, and enables students to look at issues from different viewpoints, to think 'outside the box' and to adapt to changing conditions.

This project in Unit 4 of the Student's Book helps to improve learners' cognitive flexibility.

2  Look, think and write.

Which food grows on trees?

Unit walkthrough

Aim: to practise capital letters

For song lyrics see SB p6.

Key: G, Q, T, X

- Do the activity once with the lower case and again with the capital letters.

Extension activity

Aim: to practise the alphabet sequence

- Give different instructions. When you say *please* after an instruction, students do it. When you don't say *please*, students don't do it.
- Give instructions quickly one after the other, practising the imperatives and different classroom objects. You can make the game competitive by telling students they are 'out' if they carry out an instruction incorrectly (or do something

when you haven't said *please*).

Stop after about five minutes and declare those who are still 'in' the winners.

1 WB p13 Write the words.

Aim: to give students practice in writing imperatives

Ending the lesson

Aim: to practise the story

- Put students into groups of seven. They each take a role of one of the characters.
- Play the recording. Students repeat in role.
- Students practise the role play in their groups. They can use props (a box, peaches or balls, and the classroom items: a bag, a notebook, a pencil case, a ruler and a book).
- Groups role play for the class.

Extension activity

Aim: to review phrases from the story

- Students close their Student's Books.
- Write scenes from the story on the board, with lines in the wrong order, e.g. *Pass me the box, please. / I'm sorry. / Watch out! / It's OK.*
- In pairs, students order the lines. Encourage pairs to read the corrected scenes with expression, or act them.

Learning outcomes:

- to interpret deeper meaning from a story
- to practise saying the short vowel sound /æ/, as in *bag*
- to review language from the story and the unit

New language: *black***Recycled language:** classroom objects, *cat***Phonics focus:** Your students will be able to identify and say the letter sound /æ/ in the sound sentence.**Value:** helping each other**Critical thinking (WB):** Makes predictions and estimations from given information**Warm-up****Aim:** to review phrases from the story

- Go around the class. Pick up several objects and pass them to students, saying, e.g. *Here's your pencil case.* Students respond *Thank you.*
- Students practise this language in groups of four.

2 SB p15 Find these things in the story.**Aim:** to focus on detail in the story

- Give students time to re-read the story as you play the recording.
- Students do the activity individually and then check in pairs.
- Check with the class, encouraging students to use the language in the speech bubble.

- Write *bag* on the board, using a red pen for the *a*. Separate out the three phonemes in the word and say each one separately (*b – a – g*) before saying the whole word.
- Students repeat *My bag!* after you and find the phrase in the story (picture 8).

- Check understanding of *black* by asking students to point to other black items in the classroom. Explain that *Matt* is a shortened version of the name *Matthew*.
- Repeat the sentences as a class without the recording. Say them loudly, slowly, quickly, whisper them, etc.

- Dictate the sound sentences while students write. They compare their sentences with a partner before checking in the Student's Book.

- Have a spelling test. Individually or in pairs, students write words from the unit which include the letter sound /æ/ as you read them out: *thank, Flash, back, bag, black, cat.*

Note: In British English received pronunciation, *pass* (see story frame 1) is pronounced /pa:s/ with a long 'a' sound; /aɪ/. In some areas of Britain the 'a' in *pass* is pronounced with a short 'a' sound; /æ/.**Extension activity****Aim:** to discuss the value of helping each other

- Focus on the parts of the story where the characters help each other.
- Elicit from students why this value is important and elicit examples of when students have helped people.

Note: This discussion will probably need to take place in L1.

Recycled language: classroom objects

Flashcards: 15–24 (classroom objects)

Warm-up

Aim: to review classroom objects

- Display the flashcards on the board. Elicit what the objects are.
- Draw one of the objects in a corner of the board, hiding it so students cannot see.
- Students have three guesses. They ask, e.g. *Is it a bag?* Respond with short answers (*No, it isn't.* / *Yes, it is.*) The student who guesses does the next drawing.
- Repeat four or five times.

1 20 SB p16 Listen and draw lines.

Aim: to practise listening for specific information

- Read out the names of the five children in the pictures. Say *Point to (Jane).* Students listen and point to practise recognising and reading the names before they listen.
- Tell students to look carefully at the objects on the desks.
- Make sure students know what to do. Read the instructions aloud.
- Play the recording through without stopping.

For script see TB p119.

- Give students time to check their answers with a partner.
- Play the recording through again without stopping.
- Check with the class.

Ending the lesson

Aim: to give students listening practice, and to review vocabulary

- Draw a simple picture of a desk with items on it, but keep your picture hidden from the class.
- Say *Listen.* Describe the picture you have drawn, using gesture to help with meaning, e.g. *In my picture there's a desk. On the desk there's a pencil case, a book and a ruler. And there's a cat!*
- Say *Now listen and draw!* Repeat the description, pausing to give students time to draw. If you have time, you can add colours and let students mark each item with the correct colour (e.g. *The pencil case is red.*)
- Show your original picture for the class to compare their drawings.
- Ask a volunteer to repeat the description of the picture, pointing to the items in their version.

Stronger students: Check the

colours, e.g. *What colour's the pencil case?*

- Students can colour the picture at home.

Extension activity

Aim: to give students writing practice

- Students place several objects of their choice on their desks.
- They draw a picture of their desks, with the objects, in their notebooks.
- They write sentences about their picture. Write a model text about your own desk on the board for guidance, e.g. *This is my desk. There's a notebook, a pen, a pencil, a rubber and a ruler.*
- Monitor and check spelling and that students are using commas to separate the items in their list.

Learning outcomes:

- to ask and answer about pictures
- to read for specific information
- to use *What's this? It's a ...* in a game

New language: *What's number (1)? Put away your (book), Take out your (ruler).*

Recycled language: classroom objects, colours, numbers, imperatives, *It's a (bag).*

Creative thinking: Creates content for peers to use in class activities

Creative thinking (WB): Uses own ideas for doing creative activities like retelling stories

Materials: piece of A4 card for each student (and one for yourself)

Warm-up

Aim: to review imperatives

- Give students simple instructions, e.g. *Sit at your desk, please*, building up to more complicated ones, e.g. *Pass your friend a black pen, please.* Students do the actions.

1 SB p17 Ask and answer.

Aim: to give students practice in asking and answering questions

- Students take turns to ask and answer about the pictures in pairs.
- Check and give further practice using open pairs.

Key: 2 a pen, 3 a pencil case, 4 a ruler, 5 a rubber, 6 a pencil

2 SB p17 Read and draw lines.

Aim: to practise reading for specific information (scanning)

- Present *Take out your (ruler)* and *Put away your (ruler)* by demonstrating.
- Students practise the new instructions in pairs, using classroom items.

Stronger students: Students can add colours, e.g. *Take out your green pencil. Put away your blue pen.*

- Read the instructions aloud and do the first one as an example.
- Students complete the activity individually.
- Students compare answers with their friends. Then check with the class. Students mime the answers.

Key: 1 d, 2 b, 3 a, 4 c

3 SB p17 Make a question card. Then play the guessing game.

Aim: to give students practice in reading, writing and speaking

- Draw a picture of a 'close-up' of a classroom object on a card. Write the question *What's this?*
- Write the answer on the back of the card (e.g. *It's a ruler*), but don't show this side to the class.
- Show the picture side of the card and ask *What's this?* Students guess. Show the answer and read the sentence when they guess.
- Students make their own cards. Circulate and check spelling.
- Students work in groups and take turns to show the picture on their card and ask *What's this?*

Key: 2 ruler, 3 pencil case, 4 notebook, 5 rubber, 6 book, 7 bag, 8 pen

2 WB p17 Draw and write about your pencil case.

Aim: to practise writing and to personalise the language

Ending the lesson

Aim: to practise listening and to play a memory game

- Call six students to the front with their cards from SB Activity 3. They each show the picture and read the sentence on the back. The class repeats. Make sure there are at least four different objects.
- Give the class a minute to memorise the cards. Then ask the volunteers to hide them.
- Students who are not holding the cards try to repeat the items in order, e.g. *It's a pencil case. It's a notebook. It's a bag.* The volunteers holding the cards respond with *Yes, it is* or *No, it isn't.*
- Repeat the game with different volunteers – this time eight or ten.

Extension activity

Aim: to practise word order of instructions

5 Watch a video.					

Learning outcomes:

- to integrate other areas of the curriculum through English: Science
- to identify senses and how we use them to learn

to explore the Big Question *How do we learn?*

New language: *senses, look, listen, smell, taste, touch, story, Eat your lunch, Watch a video.*

Recycled language: classroom objects

Critical thinking: Uses pre-defined categories to analyse familiar concepts

Critical thinking (WB): Demonstrates understanding of links between new ideas

Materials: items to look at, listen to, smell and/or taste (e.g. fruit, salt, sugar) and touch (e.g. toys of different materials) (optional)

Note: Before the Extension activity, check if any students have allergies.

Warm-up

Aim: to introduce the idea of using senses to learn

- Write the Big Question *How do we learn?* on the board.
- Brainstorm verbs from instructions in the Student's Book (e.g. *watch, listen, write, sing, make, play*) and write them around the question on the board.
- Focus on one activity, e.g. *sing*, and encourage students to think about what we need to do to learn a song (we need to listen). Students can answer in L1.

SB p18 How do we learn?

Aim: to raise students' awareness of the five senses

- With Student's Books closed, play the video.

For videoscript see TB p119.

- Ask students what they remember. They can use L1 to tell you about the computer, fruit, flower, etc.
- Ask students to watch again and answer *Which senses do you use?* Play the video again and elicit answers (students can answer in English and L1).

1 SB p18 Listen and point.

Aim: to present words to describe senses

- Play the recording. Students listen and point to the photos.

For script see SB p18.

- Play the recording again. Students repeat.

2 SB p18 Which senses do you use? Read and tick .

Aim: to practise words to describe senses

- Read the instruction aloud and make sure students know how to read the table. Do the first row (*Listen to a story*), copying the table on the board if necessary. Make sure students know they can tick more than one column.
- Read tasks 1 to 5 and check understanding of *story* and *Eat your lunch*.
- In small groups, students complete the activity, discussing the rest of the tasks (2 to 5) and ticking the columns.
- Elicit answers. Talk about which tasks apply to what the child is doing in the photo (*smell the mango, look at the mango, touch the mango*).

Aim: to review what students have learnt in the lesson

- Elicit what students learnt today and write it on the board, e.g. *Today I've learnt about how we use our senses to learn*. Students copy in their notebooks.

Extension activity

Aim: to review language from the lesson

- Ask *How do we learn about the world? Which senses do we use?*
- Hand out items for students to look at, touch, smell, listen to and perhaps taste. Ask different students *Which senses?*

Learning outcomes:

- to extend the focus on Science through English
- to complete a project

Materials: coloured pens or pencils, A4 paper (one piece for each student), five medium-sized boxes or trays, and items to explore the senses from the previous lesson (optional), digital or print portfolios

Note: If you are doing the Extension activity, check if any students have allergies.

Warm-up

Aim: to review words to describe senses

- Elicit words to describe senses from the previous lesson, and write them on the board.
- Agree on an action for each sense word (e.g. raising your hands to your ears for *listen*). Practise saying the words while doing the actions with the class.
- Say a sense word. Students do the correct action. They can play the same game in pairs.

3 SB p19 Read and complete the pictures.

Aim: to practise reading and the new senses vocabulary

- Read the instruction for Activity 3 and make sure students know they need to draw in the missing parts of the pictures. Explain the meaning of *something*.
- Students complete the activity individually, and then compare their pictures in pairs.
- Circulate and check answers.

Key: Students draw: 1 something to look at, 2 something to smell, 3 something to taste

4 Project SB p19 Make a senses book.

Aim: to enable students to apply what they have learnt about the senses

- Tell students they are going to make a senses book. Give each student a piece of A4 paper.
- Students fold the two short edges of the paper together to create a spread with two pages.
- Students decide on two things they would like to include. They don't have to know the words in English, but they should be things that use the senses, e.g. items of food, animals, classroom objects, toys.
- Students draw a picture on each page of their spread and write around each picture the sense words associated with this item.
- Help students put together their spreads to make a book, in small groups.
- Write *My senses book* on the board. Groups copy the phrase onto the cover page of their book. Fast finishers can decorate the covers.
- Alternatively, students could create their senses book digitally and save it to their digital portfolios.

3 WB p19 Look and write.

Aim: to give students practice in identifying situations in which different senses are used

Key: 1 Listen, 2 Look, 3 Taste

4 WB p19 Choose and draw.

Aim: to give students practice in categorising and personalising the topic

Lesson review

- Write on the board: *Today I've...*
- Elicit what students did today, e.g. practised senses vocabulary, and made a senses book.
- Write it on the board. Students copy it into their notebooks.

Extension activity

Aim: to make 'sense stations'

- Arrange a row of medium-sized boxes or trays in a corner of the classroom. Label them *look, listen, smell, taste, touch*.
- Hand out food items (fruit, salt, herbs, etc.), toys or materials and ask students which sense station they would like to put them in. Some items can be placed in more than one station.
- Students visit the sense stations and use their senses to explore the items there. Encourage them to use the language from the lesson. They can also add items from outside the classroom or from home.

- to listen, imagine and draw to demonstrate meaning
- to describe classroom objects

New language: eyes (*Close your eyes*), *Imagine*, *Penny has, for you*, *What colour is it? What's in the bag? Is there a (book)? Draw the picture.*

Recycled language: classroom objects, colours, imperatives

Creative thinking: Chooses options to create something new

Creative thinking (WB): Uses different media to make and describe his/her own designs

Cognitive control functions: Inhibitory control

Materials: coloured pens or pencils; For the WB making activity: toilet-roll tube, scissors, cardboard, glue, magazines

Warm-up

Aim: to review classroom objects and instructions

- Put the class into two teams, numbered 1 and 2 or named after colours.
- Give the teams instructions in turn, e.g. *Team 1, stand up. Team 2, open your pencil case. Team 1, sit down. Team 2, take out your pencil. Team 1, close your eyes.* Students mime or do the correct action. Once they have got the idea, make it more difficult by varying the groups (e.g. give two instructions to Team 1, one to Team 2, and so on).

- You can make the game competitive by telling students they are 'out' if they do the wrong action. The team with the most students left 'in' at the end wins.

Stronger students: Play with more than two teams to make it even more challenging (students have to listen very carefully).

1 **Listen and imagine. Then draw your picture.**

Aim: to give students practice in listening and following instructions

- Explain the activity. Make sure students have coloured pens or pencils and that they know the meaning of *imagine* and *draw*.
- Play the recording for students to follow instructions.

For script see TB p120.

- Play the recording again before students draw, if necessary.
- Circulate as they draw their pictures, asking *What colour is your bag? What's in your bag?* Praise students for using their imagination and for their originality.

2 **Work with a partner. Compare your pictures.**

Aim: to practise speaking

- Draw a picture of a bag on the board with different items inside it. Use colours if possible. Talk about the picture using *It's ...* (e.g. *It's a bag. It's green. Look inside. It's a ruler. It's red. It's my notebook. What's this? It's a cat! In my bag!*)
- Students work in pairs. They show each other their pictures and describe. Encourage them to say as much as they can.

1 **WB p20 Make a pencil holder.**

Aim: to enable students to follow a set of instructions to make a pencil holder

Ending the lesson

Aim: to give students further practice in giving and responding to instructions

- Students put their empty pencil holders from the WB activity on their desks, together with a selection of classroom items.
- Give instructions for them to listen and follow, e.g. *Put three pencils, one pen and a ruler in your pencil holder. Now take out your ruler and a red pencil.*
- Students repeat the activity in pairs, taking turns to give instructions.

Extension activity

Aim: to review colours and classroom items

Aim: to give students practice in writing instructions

- Students work in pairs. They write a set of three instructions, similar to those in the Warm-up, to give to another pair. Write prompts on the board to help, e.g. *Close ... Open ... Take ... Pass me ...*
- Pairs swap instructions, read them silently and then act them out.

Learning outcomes:

- to review language from the unit by doing a quiz
- to reflect on learning

to think about how the unit has helped them talk about the Big Question *How do we learn?*

Recycled language: vocabulary and grammar from the unit, colours, the alphabet

Creative thinking (WB): Creates texts that express personal interests, emotions, or identity

Cognitive control functions (WB): Cognitive flexibility

Warm-up

Aim: to review colours

- Revise pronunciation of the alphabet, if necessary (e.g. play the alphabet song 05 from Student's Book p6).
- Write the colours (*yellow, red, orange, green, blue, purple, black*) in jumbled letter order on the board.
- Students work in pairs and write each colour correctly.
- Choose pairs to spell out each colour word and ask them to find an item of that colour in the classroom.

**SB p21 Read and circle.**

Aim: to enable students to review language from the unit by doing a quiz

- Make sure students know how to answer by circling one option for each sentence, using the picture clues. Do the first item as an example, if necessary.

- Students do the quiz in pairs. The first time, they do it without looking back through the unit.
- Pairs check their work with other pairs.
- Students then look back to check questions they did not know.
- Check answers with the class.

Key: 1 a, 2 c, 3 b, 4 a, 5 a, 6 b, 7 c, 8 b

Picture dictionary

Aim: to review vocabulary for classroom objects

- Students look at the Picture dictionary page for classroom objects (WB p119).
- In pairs, they take turns to point to one of the pictures and say the word.
- Then students write the words under the pictures.

Key: book, desk, notebook, pen, pencil, pencil case, rubber, ruler, paper

1 WB p21 Write and circle.

Aim: to enable students to assess their own learning

Key: 2 Yes, it is. 3 No, it isn't.

2 WB p21 Look and write.

Aim: to enable students to revisit the Big Question and consolidate learning

Key: 2 listen, 3 taste, 4 smell, 5 touch

**Read. Then draw and write.**

Aim: to enable students to personalise the topic

Ending the lesson

Aim: to enable students to express their preferences

- Ask students what their favourite activity is from the unit (e.g. the song, chant or one of the games) and have a class vote.
- Repeat the most popular activity with the class.

Extension activity

Aim: to enable students to share what they have learnt

- Put students into groups of four.
- Each student opens their Workbook at p21.
- Students take turns to read aloud what they have written for Activity 3 and to say something about their pictures.
- Encourage students to compare what they have written and drawn.

Recycled language: colours, classroom objects, numbers one to ten

Cognitive control functions: Working memory

Materials: flashcards 25–34 (toys), real toys (dolls, balls, trains, cars, etc.) (optional)

Warm-up

Aim: to review colours

- Say *Find something blue.* Students take turns to find a blue item, or the whole class can stand and point. Repeat for the other colours. Teach pink and grey using things in the classroom.
- Point to objects and ask different students *What colour is it? Is it (blue)? What colour is your bag / pencil case / notebook?*

Presentation

Aim: to present toys

- Hold up each flashcard in turn. Say the word for the class to repeat. Do this three or four times.
- Hold up each flashcard for students to say the word without help.
- Stick the flashcards on the board.

1 23 **SB p22** Listen and look. Then listen and say the words.

Aim: to practise toys

- Students look at the picture in their Student's Books.

- Play the recording. Students point to the toys and words when they hear them.

For script see TB p120.

- Play the recording again. Students repeat the words.
- Students practise pointing and naming in pairs.

What do toys look like?

Aim: to encourage students to find out what toys look like

- Read the Big Question. Ask students to think about the toys in the picture, or hand out real toys and ask, e.g. *What colour is the (train)?*

Stronger students: Students can ask and answer about the colours of the toys in pairs.

- Encourage students to think about other ways that toys look different. Accept any reasonable suggestions and encourage students to think about materials and patterns.
- Discuss ideas as a class.

Note: Some of the discussion will need to be in your students' first language (L1).

- Talk about the first repeating pattern as an example, eliciting a phrase for each picture, e.g. *A small blue circle, a big red circle*.

- Students work on the rest of the shape sequences in pairs, drawing and colouring the missing shapes.

Extra support: Elicit answers before students draw and colour.

- Read question 1 and look at the example speech bubbles. Elicit the name of each toy.
- Students talk about each toy in pairs. Choose pairs to share their ideas with the class.
- Read question 2. Ask a volunteer to stand up and point to a shape in the classroom (e.g. *Look! A square.*)
- Say *Stand up and find shapes!* Students walk around and stop when they have found an item with a shape. Set a time limit of two minutes. Then ask different students to make a phrase about their item. Alternatively, students stay in their seats, look around the classroom and raise their hands when they have thought of a phrase.

- Play the whole *Super Friends* video. Then play the video again, pausing to check comprehension. Explain the meaning of *clever, amazing* and *great* and make sure students realise that Flash changes her mind about spiders. Ask what the spider is doing in picture 6. Mime thinking and then having an idea to explain *I've got an idea*. Ask who the spiders are at the end of the story, and check comprehension of *brothers and sisters*.
- Talk with the class about the value (being brave). Ask who is brave in the story (*Flash, because she overcomes her fear of the spider*).

Aim: to encourage students to find out about where food comes from

- Read the Big Question. Ask Which food is from plants? Which food is from animals? Write From plants and From animals on the board as column headings.
- Elicit ideas (From plants: banana, apple, peas, carrots; From animals: sausage, chicken, steak, fish, cheese).

Note: Some of the discussion will need to be in your students' first language (L1).

2 51 SB p46 Listen and chant.

Aim: to give students further practice saying the foods

- Pre-teach lunchtime, What's for lunch? and Yummy!
- Play the recording. Students listen and follow the chant in their Student's Books.

For chant script see SB p46.

- Play the recording again, pausing after each verse for students to repeat. Do the chant as a class and then in groups. Check that students are using singular and plurals correctly.
- Teach actions for lunch (e.g. pretending to use a knife and fork), I like (e.g. thumbs up), I don't like (e.g. thumbs down) and Yummy! (e.g. licking lips and rubbing your stomach). Students do the chant with the actions.

1 WB p46 Look and number.

Aim: to give students reading practice

Ending the lesson

Aim: to review key language from the lesson

- Hold a flashcard so students can't see it. Say Yummy! I like this food. What is it?
- Students guess, e.g. Is it cake?

Extension activity

Aim: to personalise the chant

Warm-up

Aim: to review food vocabulary

- Stick the flashcards around the room.
- Make sentences about the food items, e.g. *I like cheese sandwiches*. Students point to the correct flashcard.
- If possible, show students a closed lunchbox (with real food inside). Say *This is my lunchbox! What's in my lunchbox?* Students guess foods. Show them items they guess. Then show all the food and say *Look at my lunch! Yummy!*

Presentation

Aim: to present *have got* and *haven't got*

- Choose a flashcard and hide it from the students. Say *I've got a food*. Say, e.g. *I haven't got pizza. I haven't got a banana. I haven't got carrots. I haven't got a cheese sandwich.*

Warm-up

Aim: to review food and *have/haven't got*

- Hand the food flashcards out. Each student shows his/her flashcard and makes a sentence, e.g. *I've got an apple*, and then hides the card.
- A volunteer without a flashcard tries to remember the order, e.g. *an apple, pizza, sausages*. If he/she is right, the student with the flashcard turns it around and says, e.g. *Yes, I've got an apple*. If not, he/she hides the flashcard and says *No, I haven't got (pizza)*.

Key: 16, apples, steak, 4

3 SB p52 What's in your fridge? Think and write.

Aim: to enable students to personalise the language and practise listening and writing

Students work individually to complete a list of items in their own fridge. They write six items. Monitor to check spelling and ask *What's in your fridge?* or *Have you got any (sausages)?*

- Students work in pairs. Student A tries to guess what is on Student B's list by asking, e.g. *Have you got any (orange juice)?* Student B replies *Yes, I have* or *No, I haven't*. Then they swap roles. The activity can be competitive – students lose a 'life' each time their partner says *No, I haven't*.

1 **SB p53** Look, read and circle the five mistakes in the texts. **Exam skills**

Aim: to give students practice in reading for specific information

- Tell students to look carefully at the picture and think about what each person has got (and how many of each thing they've got). Ask questions about each person, e.g. *Has Emily got oranges? What has she got? (Bananas)*

- Explain that there are mistakes in the captions below the pictures (five mistakes in total). Read the instructions.

- Students do the activity silently and on their own. They then compare their answers in pairs and re-read to check when their answers differ.
- Check with the class.

Key: Students circle the following words:

Noah: I've got twelve sausages and **two** cheese sandwiches. I haven't got any steaks. I've got a chicken.

Peter: I've got **thirteen** apples. I **haven't** got a cake. I haven't got a pizza.

- Students work in small groups. They agree on a shopping list for a school lunch. Monitor and prompt students to use as much language as possible. Ask *What have you got on your list? Have you got any drinks?* Ask students to explain why they have chosen particular items.
- Groups share their lists with the class. You can have a class vote about which lunch students would like to eat.

For script see TB p122.

- Students check in pairs.
- Play the recording again. Check answers with the class.
- Students stick the stickers in the table.

Stronger students: Ask about the completed table, e.g. *What days does Emily ride a horse? Does Jim play tennis on Tuesdays?*

- Make four teams. Students stand one behind the other in a line in their team, facing the board.
- Whisper a sentence to the student at the back of each line.
- This student whispers the sentence to the person in front, and so on, and the student at the front of the line writes it on the board.
- Check the sentence and, if it's correct, award the team one point.

- Do this three or four times.
- Hold up each flashcard for students to say the word in chorus.
- Stick the flashcards around your drawing of the house on the board to make a word map.

1 78 **SB p70** Listen and look. Then listen and say the words.

Aim: to practise home vocabulary

- Students look at the picture in their Student's Books. Elicit who's in the picture and what they're looking at (*a picture of a house*). Ask *Is the house old or new?* Ask how Flash and Thunder feel (*scared*).

- Ask different students who are wearing the item *What colour is your (skirt)? Is it plain or has it got a pattern? / What colour are your (socks)? Have they got (stripes)?*

Stronger students: Ask two volunteers to stand at the front of the class (A and B). Student A looks at what Student B is wearing for one minute and tries to remember everything. Blindfold Student A or ask him/her to turn around so he/she can't see Student B. Ask five questions about Student B's clothes, e.g. *What colour are (name)'s trousers? Has (name)'s T-shirt got a pattern?* Student A scores a point for each correct answer.

1 SB p93 Read and circle.

Aim: to enable students to review language from the unit by doing a quiz

- Remind students that they answer by circling one option for each sentence, using the picture clues.
- Do the first item in the quiz as an example, if necessary.

Aim: to give students practice in reading for specific information (scanning)

- Students look at the pictures carefully. Pre-teach *Who am I?, climb trees and well.*

- Students do the matching task individually and then compare ideas in pairs.
- Check with the class.
- Ask four students to read the short texts aloud and teach any new words.

Key: a 3, b 1, c 4, d 2

2  **SB p101** Draw and write about an animal.

Aim: to enable students to write a description from a model

- Check students know what to do and read through the model. Encourage students to refer to the texts in SB Activity 1, too.
- Students write a rough draft in their notebooks first. Go around the class to help with language and new vocabulary.
- When you have checked their work, students write a final draft on a piece of card and draw a picture of the animal on the other side.
- Collect in the cards and hand them out around the class, picture side down.
- Students read the card they have and guess the animal, before turning it over to check the picture. They turn the card over and pass it to someone else in the class.
- Continue in this way so students read as many cards as possible.

1   **WB p101** Read the questions. Listen and write a name or a number.

Exam skills

Aim: to practise listening for specific information

For script see TB p125.

Key: 2 six/6, 3 Bruno, 4 three/3, 5 Spotty

Ending the lesson

Aim: to practise memory skills

- Students look at WB Activity 1 for 30 seconds and then close their Workbooks.
- Say sentences about the picture. Students stand up (or stay standing) if they are true, and they sit (or stay sitting) if they are false.

Extension activity

Aim: to play a guessing game

- Put students into groups of four or five. Each group chooses an animal (not on SB p101) without telling the rest of the class what it is. They write a short description of it in four or five sentences, as if they were the animal, e.g. *We've got four legs. We're big. We're yellow with brown spots. We can walk and run. We can't fly.*
- Monitor and check all the sentences.
- Groups take turns to stand up and say their sentences (each student says a sentence). The rest of the class guess the animal. Students might need to use L1, but write the answers in English on the board.

1 Read and match. Say the animal.

a

I've got eight legs. I'm black with red spots. I can make webs. What am I?

b

I haven't got arms or legs. I can't walk or run but I can swim. What am I?

c

I've got four legs. I'm big and brown. I can climb trees. What am I?

d

I've got six legs and I can fly. I can't walk well. What am I?

Learning outcomes:

- to integrate other areas of the curriculum through English: Physical education
- to talk about moving in different directions

to explore the Big Question *How can we move?*

New language: movements, (go) forwards, backwards, sideways, step (n), jump, to the left/right, then

Recycled language: actions, parts of the body

Critical thinking (WB): Solves simple puzzles (e.g. word puzzles)

Flashcards: 91–98 (the body)

Warm-up

Aim: to review parts of the body

- Take a flashcard without showing the class what it is. Say *I'm thinking of a body part. What is it?*
- Students guess, e.g. *Is it a hand?*
- The student who guesses correctly chooses the next flashcard for the class to guess.

SB p102 How do you move?

Aim: to raise students' awareness of directions of movement

- Write *movement* on the board and elicit what it means. Tell students they're going to watch a video about the different ways we move. Elicit examples of movements students already know in English (e.g. *walk, run, climb*). Pre-teach *step* and *babies*.

- With Student's Books closed, play the video.

For videoscript see TB p125.

- Ask what students remember.
- Students watch again and answer *How do you move?* Ask them to look out for words to describe movement. Elicit ideas, e.g. *walk, jump, dance, do sport, swim*. They may also mention *yoga* and *gymnastics*. Ask what animals they saw and how they move (e.g. *monkey – climbing, kangaroo – jumping, bird – flying*).

1 116 **SB p102** Listen and point.

Aim: to present ways of moving

- Play the recording. Students listen and point. Demonstrate each movement at the same time.

For script see SB p102.

- Play the recording again. Students stand up, say the words and move.

2 117 **SB p102** Listen and do the movements.

Aim: to practise the new language

- Give some instructions using the directions from Activity 1, showing students which way to move, e.g. *Go one step forwards. Go two steps sideways. Jump!* Continue until students get the idea and are able to follow directions without your help.
- Play the recording. Students listen and move according to the directions.

For script see TB p126.

3 **SB p102** Look and say.

Aim: to practise the new language and interpret symbols, using a key

- Check students understand the key. Read the example speech bubble and help them work out the second instruction.

- In pairs, students read the symbols. Elicit instructions for each row of symbols.

Extra support: Say one of the instructions. Students point to the correct row of symbols. Say the instructions again. Students repeat, following the symbols in their books.

Key: 2 Go three steps backwards and then two steps sideways to your left. 3 Go one step forwards and then one step backwards. 4 Go two steps sideways to your left and then six steps forwards.

Aim: to practise reading the new language and following written instructions

Key: rectangle

Lesson review

- Elicit what students learnt today and write it on the board, e.g. *Today I've learnt about different ways of moving.* Students copy in their notebooks.

Extension activity

Aim: to personalise language from the lesson

- In pairs, students write their own instructions with two stages, using the same symbols as SB Activity 3.

- Students read the sentences and match them with the pictures by numbering.

Key: 1 She stretches her arms forwards. 2 She stretches her legs. 3 She jumps. 4 She stretches backwards.

5

**Project**

SB p103 **Make a dance. Show your friends.**

Aim: to enable students to creatively engage with what they have learnt about movement

- Read the instructions and ask some volunteers to do the dance in the example.
- Give each pair or group of students a piece of A4 paper and ask them to divide it into four sections.
- Each pair/group chooses movements for the four parts of their own dance, draws a picture and writes a text for each part of their dance. Tell students they can draw stick pictures like the ones in the SB.
- Pairs or groups do their dances for the class (students take turns to describe the movements while the others dance). Play a recording of instrumental music, if available.
- The dances could be filmed and saved to students' digital portfolios.

Stronger students: Groups chant or rap their dances to a beat, as they do the movements. Give them time to rehearse before they perform it for the class.

Extra support: The teacher reads out the instructions for a dance, while the class do the movements.

- If time, have a class vote for the best dance and then all do that dance together. Students can also perform their dances for other students at school.

- Work through the instructions, showing students how to make the scrapbook cover.

- Students make their scrapbooks and decorate the cover. Circulate and help with stages 3 and 4.

Note: Students can stick their own photos in the scrapbook in the next lesson or draw pictures for homework.

Ending the lesson

Aim: to enable students to share their ideas

- Display the pictures from SB Activity 2 around the classroom, as if in an art gallery.
- Students walk around and look at their classmates' work.
- Monitor and ask questions, e.g. *Do you like this picture? Is this holiday in the mountains? What's this? What can you do here?*

Stronger students: Ask different students to choose a picture they liked and say something about it.

Extension activity

Aim: to enable students to show their holiday scrapbooks

- Students take turns to talk to the class about the pictures and different sections in their holiday scrapbook.

Note: They may do this in the next or subsequent lessons when they have a chance to bring in photos from home.

Learning outcomes:

- to review language from the unit by doing a quiz
- to reflect on learning

to think about how the unit has helped them talk about the Big Question *Where can we go on holiday?*

Recycled language: vocabulary and grammar from the unit

Creative thinking (WB): Creates texts that express personal interests, emotions, or identity

Cognitive control functions (WB): Cognitive flexibility

Flashcards: 99–107 (holidays)

Warm-up**Aim:** to review holiday activities

- Display the flashcards on the board. Write a number between 1 and 9 under each one. Students write the numbers and then the phrases in their notebooks.
- They compare answers in pairs and then check in their Student's Book.
- In pairs, students practise the phrases. Student A closes his/her notebook. Student B says, e.g. *I can make a ...* Student A says *sandcastle*.

1**WB p117****Read and circle.**

Aim: to enable students to review language from the unit by doing a quiz

- Remind students that they answer by circling one option for each sentence, using the picture clues, if appropriate.

- Do the first item in the quiz as an example, if necessary.
- Students do the quiz in pairs. The first time, they do it without looking back through the unit.
- Pairs check their work with other pairs.
- Students then look back to check questions they did not know.
- Check answers with the class.

- Check and ask students to give more examples of places we can go on holiday (e.g. campsite, beach, stay at home).

Key: 2 mountains, 3 lake

3 WB p117 Read. Then draw and write.

Aim: to enable students to personalise the topic

Picture dictionary

Aim: to review vocabulary for holiday activities

- Students look at the Picture dictionary page for holidays (WB p128).
- In pairs, they take turns to point to one of the pictures and say the phrase.
- Then students write the phrases under the pictures.

Key: eat an ice cream, listen to music, look for shells, make a sandcastle, paint a picture, read a book, take a photo, play the guitar

Ending the lesson

Aim: to enable students to express their preferences and review language from the course

- Ask students what their favourite song is from the whole book and have a class vote.
- Play the song with students following the lyrics in their Student's Books.
- Students practise the song (with actions, if appropriate) and then perform it in small groups or all together.

Stronger students: Make groups of four or five. Each group practises a different song and then performs it for the class, along with the karaoke audio or video.

Extension activity

Aim: to enable students to share what they have learnt

- Put students into groups of four.
- They take turns to show the picture they drew for WB Activity 3 and read their description.
